Service Interruptions

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A Winter Storm Warning is in effect through early Friday morning.
- The stronger mid-week system will bring a widespread half inch up to an inch over much of the Valley, locally higher up toward Redding.
- Foothill and mountain locations can expect higher amounts, mainly in the form of snow.
- Multiple feet of snow is forecast tomorrow night-early Friday, heaviest falling through Thursday afternoon.
- Major accumulations expected above 2,500-3,000 feet with lighter accumulation possible at lower elevations.
- Hazardous travel conditions expected with this storm.

SOUTHERN CALIFORNIA

- A winter storm will bring rain, mountain snow, and gusty winds to the area Thursday and Thursday night. Expect mountain road closures (possibly including the Grapevine), urban road delays, and minor flooding.

WEATHER KEY POINTS

01/15/20 - 01/21/20

Wednesday-Thursday

- A strong storm system will move across primarily central and northern CA tonight through Thursday night
 - Heavy snow and strong winds over the mountains of Inland and Coastal Regions will cause major travel impacts
 - Snow levels generally around 2,000-3,000 feet in northern California and 3000-4000 feet in central California
 - Sierra - Snow amounts 1 to 2 feet, with localized amounts up to 3 feet
 - Other Inland and Coastal Region Mountains- Snow amounts 6 to 12 inches, with localized amounts up to 2 feet
 - Periods of heavy rainfall are possible in the lower elevations
 - Rises are expected in small creeks and streams, especially in Coastal Region, but no main stem river flooding is expected, and no significant impacts to burn scars are expected
 - Lighter rain and snow could impact portions of Southern Region late Thursday
 - Most snow accumulation in Southern Region is expected above 5,000 feet, but snow levels could drop down to 3,500 feet behind the cold front, with the possibility of impacts at some passes including the Grapevine
 - Strong winds will begin near the Oregon border today and continue through Thursday, with tree damage and power outages possible, particularly in Modoc and Siskiyou counties
 - Somewhat weaker but still gusty winds will also spread south into much of Inland Region tonight and Thursday, with damage to tree limbs and travel impacts possible
 - Thunderstorms are possible in Coastal Region, and could produce small hail and brief heavy rain

Friday-Tuesday

- Periods of valley rain and light mountain snowfall are expected across northern CA
 - Minor travel impacts over the mountains are possible at times, primarily in Inland Region
- Otherwise, mostly dry conditions across the state with no significant impacts
